EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 1-6, 17-19.

Election/Restrictions

This application is in condition for allowance except for the presence of claims 1-6, 17-19 non-elected without traverse. Accordingly, claims 1-6, 17-19 have been cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Prior arts of record do not disclose an optical testing instrument. The instrument comprises: a wavelength dependent transmission responsive device to determine one or more distinct wavelength points in the sweep of the illumination source, and a measuring circuit synchronized to the wavelength dependent transmission responsive device to measure illumination from the device under test over at least a range of the wavelength band which structurally arranged and functionally operated as claimed in claim 7.

Prior arts of record do not disclose a method for testing an object. The method comprises: determining one or more distinct wavelength points using a wavelength dependent transmission responsive device to which the electromagnetic energy is directed; coordinating the measuring step with one or more of the distinct wavelength points of the sweep determined by the wavelength dependent transmission responsive device which structurally arranged and functionally operated as claimed in claim 10.

Prior arts of record do not disclose a system for measuring electromagnetic energy. The system comprises: a periodic wavelength reference having a detectable distinct response to a distinct wavelength of such electromagnetic energy to indicate to the measuring system occurrence of such distinct wavelength as a reference point to synchronize measurements with the sweeping of the wavelength of the electromagnetic energy which structurally arranged and functionally operated as claimed in claim 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tu T. Nguyen whose telephone number is (571) 272-2424. The examiner can normally be reached on T-F 7:30-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory Toatley Jr. can be reached on (571) 272-2800 Ext. 77. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
